Office of Secretary

Re: REDACTED/CONFIDENTIAL INFORMATION – SUBJECT TO PROTECTIVE ORDER IN CC DOCKET NO. 01-338; WC DOCKET NO.

04-313

Dear Mrs. Dortch:

Pursuant to the Protective Order issued in CC Docket No. 01-338, WC Docket No. 04-313 released August 20, 2004, BellSouth submits two (2) copies of its redacted confidential filing to be included in the public record in the above referenced proceedings.

BellSouth is submitting under separate cover one (1) confidential copy which should receive all protection afforded to such information as set forth in the terms of the Protective Order.

Sincere

Should you have any questions, please contact me.

WC Docket No. 04-313 CC Docket No. 01-338 October 4, 2004

# BellSouth Appendix

Redacted Tab 14

33. Please provide a breakdown of the total number of end user customers served by Comcast Phone in Georgia by class or type of end user customers (e.g., residential customers, small business customers, mass market customers, enterprise customers, or whatever type of classification that you use to classify your customers. For each such classification, and/or if you provide another type of classification, define and describe with specificity the classification so that it can be determined what kinds of customers you have in each classification).

Respondent:

David Sered, Director of Regulatory Affairs

### Response:

Subject to Comcast Phone's Objections to BellSouth's First Set of Interrogatories submitted on November 20, 2003, and without waiver thereof, Comcast Phone responds as follows:

### [BEGIN CONFIDENTIAL INFORMATION]

As noted in response to Interrogatory 26, Interrogatory 29 and herein below, virtually all Comcast Phone's customers in the State of Georgia are residential customers. Furthermore, as noted in response to Interrogatories 26 and 29, all Comcast Phone customers in the State of Georgia purchase a combination of voice-grade basic local exchange services and in some instances one or more of the following: associated features, local toll services and/or long distance services. As of November 12, 2003, Comcast Phone provided basic local exchange service to voice-grade lines in the State of Georgia, of which only voice-grade lines were subscribing to business offerings, with the remainder subscribing to residential offerings.

[END CONFIDENTIAL INFORMATION]

## INTERROGATORIES OF BELLSOUTH TELECOMMUNICATIONS, INC. RESPONSES OF COMCAST PHONE OF FLORIDA. LLC

Re: In re: Implementation of requirements arising From Federal Communications Commission triennial UNE review: Local Circuit Switching for Mass Market Customers.

Docket Nos.

Docket No. 030851-TP

DATE:

November 7, 2003

Respondent:

David Sered, Director of Regulatory Affairs

 For every switch identified in response to Question 1, provide the number of DS-O/voice grade equivalent access lines currently in use and state the date for which such information is provided.

#### Response:

Comeast Phone objects to this Request on the ground it is vague and ambiguous with respect to the phrase "in use." Comeast Phone further objects to this Request to the extent that it seeks information outside the possession or control of Comeast Phone (i.e., information about the number of DS-0/voice grade equivalent access lines in use by a variety of parties outside the control of Comeast. Comeast Phone further objects to this Request on the grounds that, to the extent Comeast Phone possesses such information, if any, production of that information would require Comeast Phone to violate confidentiality agreements. Subject to those objections and without waiver thereof, Comeast Phone responds that the number of voice-grade equivalent DS0 lines served by Comeast Phone using that arrangement is:

[BEGIN CONFIDENTIAL INFORMATION] [END CONFIDENTIAL INFORMATION] lines, as of November 12, 2003, in the State of Florida.

33. Please provide a breakdown of the total number of end user customers served by Comcast Phone in Kentucky by class or type of end user customers (e.g., residential customers, small business customers, mass market customers, enterprise customers, or whatever type of classification that you use to classify your customers. For each such classification, and/or if you provide another type of classification, define and describe with specificity the classification so that it can be determined what kinds of customers you have in each classification).

Respondent:

David Sered, Director of Regulatory Affairs

### Response:

Subject to Comcast Phone's General Objections outlined above, and without waiving any objection, Comcast Phone responds as follows:

As noted in response to Question 26, Question 29 and herein below, all Comeast Phone customers in Kentucky are customers of our residential services. Furthermore, as noted in response to Questions 26 and 29, all Comeast Phone customers in Kentucky purchase a combination of voice-grade basic local exchange services and in some instances one or more of the following: associated features, local toll services and/or long distance services.

### [BEGIN CONFIDENTIAL INFORMATION]

As of November 1, 2003, Comcast Phone provided basic local exchange service to voice-grade lines in Kentucky.

END CONFIDENTIAL INFORMATION

WC Docket No. 04-313 CC Docket No. 01-338
